

# CALLING ALL BUDDING PILOTS!

Join us at Clipper Aviation's world-class facility at the iconic Van Nuys Airport and begin pursuing your passion for aviation. Our five-day summer program for ages 10-18 offers the perfect opportunity to spread your wings and jump into the world of flying.

Build flight time and develop your skills in the skies above Southern California using Clipper's industry-leading Cirrus and Piper aircraft.

The program includes flight instruction, simulator practice sessions, airport facility tours and classroom theory - perfect to begin building an understanding of the wide world of aviation and all the adventures it can bring
